

NORTH CAROLINA BOARD of MASSAGE & BODYWORK THERAPY

Regulating the practice of massage and bodywork therapy and its educational institutions, for the protection of the public.

2014 NEWSLETTER

Message from the Board Chair, Ed Preston M.D.

“The purpose of the North Carolina Board of Massage and Bodywork Therapy, as expressed in GS 90–621, is ”.....to ensure the protection of the health, safety, and welfare of the citizens of this State receiving massage and bodywork therapy services. This purpose is achieved by establishing education and testing standards that ensure competency in the practice of massage and bodywork therapy. Mandatory licensure of those engaged in the practice of massage and bodywork therapy assures the public that each individual has satisfactorily met the standards of the profession and continues to meet both the ethical and competency goals of the profession.”

2014 was a busy year for the North Carolina Board of Massage and Bodywork Therapy. It was engaged in evaluation and approval of proprietary schools of massage and bodywork therapy, licensing, and renewal of licenses for massage and bodywork therapists (14,335 licenses issued in total and 8653 licenses currently active), disciplinary undertakings and hearings, and public education.

In June the Board established an Ad Hoc Committee for Continuing Education. The mission of this committee is to keep the Board informed about developments which seek to improve the vetting of providers of continuing education and assure that appropriate coursework is provided for continuing education. In advancing these goals, the Board continues its relationship with the National Certification Board for Therapeutic Massage and Bodywork, NCBTMB, and the Federation of State Massage Therapy Boards, FSMTB. In August the Board approved a resolution developed by the Continuing Education Task Force of the Federation of State Massage Therapy Boards for the “Federation” to develop a program for vetting CE providers and CE courses.

The Board provided its opinion to the State regarding the State’s consideration of organizing a single State agency that would provide administrative and regulatory functions of the State’s occupational licensing agencies. This exploration is ongoing but at this time the Board does not believe such an arrangement will work as efficiently as the present arrangement.

Early in the year 2015, the Board will gather in retreat to explore in depth establishment regulation and continuing education. Additionally, it will set goals for the future and explore ways in which to improve the delivery of massage and bodywork therapy services to the public.

We anticipate 2015 will be a busy and productive year for the Board. The support of the public and the LMBT’s in North Carolina is appreciated. Your comments and suggestions are always welcomed.

FSMTB and NCBTMB Agreement

Early October 2014, the FSMTB (Federation of State Massage Therapy Boards) and NCBTMB (National Certification Board in Therapeutic Massage and Bodywork) came to an agreement that NCBTMB will no longer provide examination for entry level licensure and that the MBLEX (Massage and Bodywork Licensing Exam) will be the sole entry level licensure exam for the profession. This decision supports the common goal of each of the following organizations, ABMP (Associated Bodywork and Massage Professionals), AMTA (American Massage Therapy Association), and AFTME (Alliance for Massage Therapy Education) to improve and facilitate licensure portability for therapists. Going forward, NCBTMB’s main focus will be providing its Advanced Board Certification credential (BCTMB), which is the highest attainable certification level in the massage and bodywork therapy profession, and to continue working towards ensuring that it’s nationally recognized Approved Provider Program is of the highest quality.

As of November 1, 2014, NCBTMB stopped accepting licensure exam applications and will cease offering licensure exams effective February 1, 2015. The FSMTB and NCBTMB will continue to work with state licensing boards, agencies, candidates and schools to ensure a smooth transition. This agreement moves the massage and bodywork therapy profession in a positive direction and benefits the regulatory community by having a more standard and simplified licensing process.

Applicants seeking licensure information regarding the MBLEX may contact FSMTB at mblex@fsmbt.org and applicants seeking Board Certification offered by NCBTMB may contact info@ncbtmb.org.

NEW BOARD MEMBERS

The Honorable Phil Berger, President Pro Tempore of the Senate, appointed Nancy Harrell of Wake County to the position previously held by Josh Herman. Her term began August 15, 2014 and will expire June 30, 2017.

Nancy Harrell:

Nancy Harrell, LMBT is originally from Durham, NC. She graduated from Meredith College with a degree in Dance Education and worked at the American Dance Festival and taught dance classes at a private studio to students who ranged in age from preschool to adult. She was also a member of Art in Motion Dance Company in Raleigh, NC. She returned to school and received a second undergraduate degree in Social Work with a concentration in school social work.

After visiting several spas in the area as a client, she became interested in alternative health practices and decided to pursue certification in aromatherapy through the Atlantic Institute of Aromatherapy. From there she decided to attend the American & European Massage School and graduated in December, 2003. She opened her own massage therapy practice in Apex and later worked at both Synergy Spa in Raleigh and Syeni Spa in Apex. Being from a family of educators, Nancy always had an interest in teaching and in 2006, she began doing just that as an adjunct instructor in the massage therapy department at Miller-Motte College in Cary. In 2009, she became the Massage Therapy Program Director at the school and has been in that position ever since.

In her continuing quest to learn more about health and wellness, Nancy completed her master's degree in Health Education and Health Promotion at the University of Alabama and is also a Registered Yoga Teacher and a Certified Personal Trainer.

In her spare time you can find her reading, working out at the gym or taking a continuing education class.

Nancy currently lives in Cary and has two wonderful sons who are seniors in high school.

ESTABLISHMENT REGULATION

In 2011, the North Carolina Board of Massage and Bodywork Therapy (Board) formed the Establishment Regulation Committee (ERC) in response to complaints regarding unlicensed persons being hired to perform massage and bodywork therapy and allegations of other illegal activity taking place in massage and bodywork establishments. After receiving information from other states that regulate establishments as part of their practice acts, and getting feedback from therapists the ERC completed multiple revisions of rules for licensing establishments. The final product was sent to the Rules Review Commission for feedback and suggestions. The ERC is reviewing these suggestions and will bring the final proposed rules to the Board for approval. At that point the rules will be filed with the Office of Administrative Hearings, published in the NC Register and the Board will then receive written public comment and will hear verbal public comments during a regularly scheduled Board meeting. After evaluating the comments and making any additional amendments to the proposed rules, the Board will present the proposed rules to the Rules Review Commission for a formal review of the rules. It is only after this process is complete and approval is received from the Rules Review Commission that the new rules can be in effect and published as a part of the Board's Rules and Regulations.

The purpose in developing rules to license massage and bodywork therapy establishments is to help improve the safety of the clients who are receiving treatments. Currently the Board has no authority over an establishment that employs unlicensed persons to provide massage and bodywork therapy. Likewise, the Board cannot hold accountable establishments that allow illegal and inappropriate activity to take place in their facilities under the guise of massage or bodywork therapy. The Board looks forward to support from the massage and bodywork therapy professionals in the State who would also like to see an end to these activities. The Board will continue to seek ways to protect the public from improper, illegal, and sometimes illicit practices and with the assistance of the LMBTs in the State will seek to enhance the profession of massage and bodywork therapy.

HUMAN TRAFFICKING

Merriam Webster's Dictionary defines human trafficking as "organized criminal activity in which human beings are treated as possessions to be controlled and exploited (as by being forced into prostitution or involuntary labor)." It is one of the fastest growing criminal industries in the world, and it has chosen to use the massage profession as one of the fronts for this illegal activity. The North Carolina Board of Massage and Bodywork Therapy is aware of this activity and has been working with law enforcement to stop this activity and educate the public on the laws governing massage and bodywork therapy in this State.

At the June, 2014 meeting, the Board listened to a presentation by a special agent from the Charlotte office of the Department of Homeland Security that pertained to this topic. What the board learned was that many human traffickers will lure individuals, whose first language is not English, to work in North Carolina by promising to pay their way here for jobs, and stating they will help the individual get their North Carolina massage and bodywork therapy license, or just not telling them they need a license to practice in this State. Once the individual is here, they are trapped by the trafficker who expects them to repay their debt. They are then under the control of the owner of the establishment, corporation or gang.

The Board is doing what it can to stop this illegal activity. The Board has created a public service message that will be run in the common foreign language newspapers where these massage jobs are regularly advertised. The message will be translated into targeted dialects such as Chinese-Mandarin, Chinese-Cantonese, Chinese-Fujinese and Korean as these have been identified by Homeland Security to be the primary languages spoken by individuals most exploited by the traffickers.

While human trafficking isn't restricted to individuals who are not native English speakers, the Board has put information in place that can help protect the public from being the victim of human trafficking. The Board's website has online verification of licensure, and has created videos to help protect the public from unlicensed individuals. The Board has also submitted language for the creation of a regulation that will require establishments that advertise or provide massage therapy to have an Establishment License. This license will further enable the Board to take action against enterprises that use unlicensed individuals, and hopefully, let organizations, corporations or gangs that deal in human trafficking know they are not welcome in North Carolina.

DISCIPLINARY ACTIONS TAKEN BY THE BOARD FROM JANUARY 1, 2014 THROUGH DECEMBER 31, 2014

The Board is authorized to investigate complaints and institute disciplinary actions,
as set forth in Section .0900 of the Rules.
